

Simple Ledger

Simple Ledger is an easy to use double entry general ledger accounting system designed by accountants for accountants and small business owners.

Simple Ledger is not your average general ledger.

Built by trusted BGL programmers, the accounting compliance software specialists, Simple Ledger was one of the first general ledgers in Singapore to include XBRL Financial Statements.

Simple Ledger is a general ledger system with a fully integrated investment register and depreciable assets module. It can handle investment disposal transactions, depreciation and has full GST recording, calculation and reporting.

Simple Ledger is an open item general ledger. There are no accounting periods, period ends or year ends. Transactions input in any period automatically update any future ledger reports.

Simple Ledger has intuitive data input routines, making processing bank statements, journals, receipts, payments and share movement transactions a breeze.

Product features

- Fast, intuitive data input
- Ability to edit and delete any transaction input
- Fully flexible Master Chart of Accounts that can be tailored to meet your individual needs
- Fully integrated investment register
- Automated investment disposal process
- Automated process for recording share bonus issues, consolidations, conversions and returns of capital
- Ability to automatically allocate income to partners and beneficiaries based on percentages
- Livestock / farm accounting
- Fully integrated asset register with depreciation
- Automated process for calculation of depreciation
- Full GST recording, calculation and reporting
- Standing journals
- Reversing journals

- Extensive range of data import routines
- Ability to record account notes
- Full set of financial reports, investment and depreciable asset reports
- Ability to fully customise all notes to the financial statements
- Automatic generation of Singapore XBRL financial statements including printing of statutory accounts and data file for lodgement with ACRA
- Ability to export all reports to Adobe PDF, MS Word or MS Excel
- Ability to email reports to clients and business associates
- Automated software update service
- Ability to import SGX prices
- BGL Direct messaging service

Advanced software integration

Simple Ledger has a similar user interface and shares many screens and processes with other BGL applications. For existing BGL clients, this makes learning to use Simple Ledger even easier. Simple Ledger supports transaction imports from major banks, MYOB, ETrade and the BGL XML import. A generic spreadsheet import function, for importing ledgers from other applications, is also available.

Simple Ledger

Extensive reporting capabilities

Simple Ledger prepares a complete set of financial reports, investment and depreciable asset reports.

All reports can be previewed, printed or exported to Adobe PDF, MS Word or MS Excel.
